معرفی

► پایگاه کلینیکال کی جدیدترین منبع مرجع پزشکی آنلاین از مجموعه الزویر پیشرو در ارائه اطلاعات جهانی سلامت و ابزار بدیع جستجوی نیازهای بالینی پزشکان و پیراپزشکان جهت تصمیم گیری است.

مجموعه ای است از مجلات ، کتاب، راهنماها ، اطلاعات دارویی ، تصاویر ، ویدیوهای پزشکی و جراحی و شواهد بالینی مورد نیاز پزشکان، پیراپزشکان، دانشجویان و بیماران

ویژگیهای پایگاه برای پزشکان، مدیران بیمارستانها و کتابداران

۱-جامعیت : با ارائه بزرگترین مجموعه منابع مبتنی بر شواهد منتشر شده در هر تخصص پزشکی و جراحی در یک منبع پویا و هوشمند یک ارتباط مفهومی با دیگر منابع بالینی ایجاد می نماید تا بتوان با یک جستجوبه تمام اطلاعات در آن زمینه به صورت یکجا دسترسی پیدا کرد.

۲- قابل اطمینان بودن: به دلیل نمایه شدن روزانه مطالب جدید در پایگاه اطمینان پزشکان از روزآمدی و مرتبط بودن مطالب مورد جستجو و در نتیجه کاهش خطاها و بهبود تصمیمات بالینی فراهم می شود.

۳- سرعت پاسخگویی: با دسترسی به اطلاعات جامع، مطمئن و سازمان یافته پزشکان نیازی به جستجوی منابع مختلف نداشته و درمراقبت از بیماران کارآمدتر و در وقت آنها صرفه جویی می شود.

۴- سهولت استفاده: ادغام یکپارچه یافته های روزانه پزشکان ، آن را به عنوان یک سرمایه علمی مطمئن و کارآمد درآورده که با رابط کاربری ساده ارائه می شود.

محتوای پایگاه

- بیش از ۱۰۰۰۰ عنوان کتاب مرجع
- ۶۰۰ عنوان ژورنال معتبر در برگیرنده حدود دو میلیون مقاله
- ۶۰۰۰۰۰ مقالات تمام متن جاری و در دست انتشار
- حدود ۲۰ میلیون چکیده MEDLINE که هر روز از کتابخانه ملی پزشکی NLM بازیابی و با نتایج جستجوی clinicalkey یکپارچه شده است
- ۲۹۰۰ تک نگاشت دارویی
- ۴۵۰۰ راهنمای طبابت (Guide Line)
- ۱۵۰۰۰ جزوه آموزش
- ۱۷۰۰۰ ویدئو
- بالغ بر سه میلیون عکس و تصویر

نحوه ی دسترسی به ClinicalKey

نشانی مستقیم پایگاه (www.clinicalkey.com)

ورود به سایت دانشگاه علوم پزشکی هرمزگان (<http://.digilib.hums.ac.ir/>) و کلیک بر روی لوگوی Clinicalkey

Myocardial Infarction

Disease Overview

[View Full Topic](#)

Ferri's Clinical Advisor 2019 - Ferri, Fred F., M.D., F.A.C.P.

Definition ▲

Myocardial infarction (MI) is a clinical syndrome characterized by symptoms of myocardial ischemia, persistent electrocardiographic (ECG) changes, and release of biomarkers of myocardial necrosis resulting from an insufficient supply of oxygenated blood to an area of the heart. According to the European Society of Cardiology/American College of Cardiology guidelines, the following criteria for acute evolving or recent MI satisfies the diagnosis:

1. Detection of the rise and/or fall of cardiac biomarker values (preferably cTn) with at least 1 value above the 99th percentile and with at least 1 of the following:
 - Symptoms of ischemia
 - New, or presumed new, significant ST-T changes or new LBBB
 - New ST elevation at the J point in at least 2 contiguous leads of ≥ 2 mm (0.2 mV) in men or ≥ 1.5 mm (0.15 mV) in women in leads V₂-V₃ and/or of ≥ 1 mm (0.1 mV) in other contiguous chest leads or the limb leads
 - Development of pathologic Q waves in the ECG...

Abstract

BACKGROUND: The comparative efficacy of various anticoagulation strategies has not been clearly established in patients with acute myocardial infarction who are undergoing percutaneous coronary intervention (PCI) according to current practice, which includes the use of radial-artery access for PCI and administration of potent P2Y₁₂ inhibitors without the planned use of glycoprotein IIb/IIIa inhibitors.

METHODS: In this multicenter, randomized, registry-based, open-label clinical trial, we enrolled patients with either ST-segment elevation myocardial infarction (STEMI) or non-STEMI (NSTEMI) who were undergoing PCI and receiving treatment with a potent P2Y₁₂ inhibitor (ticagrelor, prasugrel, or cangrelor) without the planned use of glycoprotein IIb/IIIa inhibitors. The patients were randomly assigned to receive bivalirudin or heparin during PCI, which was performed predominantly with the use of radial-artery access. The primary end point was a composite of death from any cause, myocardial infarction, or major bleeding during 180 days of follow-up.

RESULTS: A total of 6006 patients (3005 with STEMI and 3001 with NSTEMI) were enrolled in the trial. At 180 days, a primary end-point event had occurred in 12.3% of the patients (369 of 3004) in the bivalirudin group and in 12.8% (383 of 3002) in the heparin group (hazard ratio, 0.96; 95% confidence interval [CI], 0.83 to 1.10; P=0.54). The results were consistent between patients with STEMI and those with NSTEMI and across other major subgroups. Myocardial infarction occurred in 2.0% of the patients in the bivalirudin group and in 2.4% in the heparin group (hazard ratio, 0.84; 95% CI, 0.60 to 1.19; P=0.33), major bleeding in 8.6% and 8.6%, respectively (hazard ratio, 1.00; 95% CI, 0.84 to 1.19; P=0.98), definite stent thrombosis in 0.4% and 0.7%, respectively (hazard ratio, 0.54; 95% CI, 0.27 to 1.10; P=0.09), and death in 2.9% and 2.8%, respectively (hazard ratio, 1.05; 95% CI, 0.78 to 1.41; P=0.76).

CONCLUSIONS: Among patients undergoing PCI for myocardial infarction, the rate of the composite of death from any cause, myocardial infarction, or major bleeding was not lower among those who received bivalirudin than among those who received heparin

Immigration Policy: Valuing Children

Pages 723-725. Mendoza, Fernando S., MD, MPH, Cueto, Victor, MD, Lawrence, Duncan, PhD, Sanders, Lee, MD, MPH, and Weintraub, Dana, MD, MPH.

The United States is currently debating the fate and treatment of undocumented immigrants. This contentious debate has placed immigrant families in a state of uncertainty, and their children are experiencing heightened stress and insecurity about ...

[The Men and Women in the Alpha](#)

Pages 1199-1200. McGinty, Geraldine B., MD.

David Brailer [1], who served as health IT “czar” for President George W. Bush, apparently quipped that “In the health policy world, you get an A for effort—not for results—because no one ever gets results.” Both as a former chair of the ACR’s Co...

[Nostalgia](#)

Pages 1201-1201. Hillman, Bruce J., MD.

It isn't necessary to imagine the world ending by fire or ice . . . There are two other possibilities. One is paperwork, and the other is nostalgia. —Frank Zappa Earlier this month, I attended my 23rd consecutive ACR annual meeting. It was the fir...

[Architect Glasses](#)

Pages 1202-1202. Schweitzer, Mark, MD.

One thing I have noticed in many institutions over the years is how the dress codes for radiologists, and especially trainees, have changed. When I have a chance, I ask residents if they have a dress code. The answers have evolved from ties and wh...

Drug Monographs: شامل فهرست الفبایی بیش از ۲۹۰۰ تک نگاشت است که روزانه روزآمد می شوند. با انتخاب دارو اطلاعاتی مانند رده دارویی، عوارض جانبی، کاربرد دارو، تداخلات دارویی نمایش داده می شود. همچنین با جستجوی نام بیماری داروهای مربوط به بیماری نمایش داده می شوند.

The screenshot shows the ClinicalKey website interface. The browser tabs include 'دانشگاه علوم پزشکی هرمزگان', 'کتابخانه دیجیتال', 'Browse Drug Monographs- Clin', and 'mikrotik hotspot > status'. The address bar shows 'https://www.clinicalkey.com/#1/browse/drugs'. The ClinicalKey logo is in the top left, and navigation links for 'Search' and 'Browse' are in the top right. A secondary navigation bar contains 'Books', 'Journals', 'Drug Monographs' (highlighted with a red box), 'Guidelines', 'Patient Education', 'Clinical Overviews/First Consult', and 'Multimedia'. The main heading is 'Browse Drug Monographs'. On the left, there is a 'Filter By:' section with 'Drug Class' and 'Adverse Reactions' dropdowns. The 'Drug Class' list includes categories like 'ACTH And Analogs', 'ADHD Adjunct Agents', etc. A 'Filter List by Title' dropdown is set to 'A B C D E F G H I J K L M N O P Q R S T U V W X Y Z'. The main content area lists drug monographs: 'Abacavir (Ziagen)', 'Abacavir; Dolutegravir; Lamivudine (TRIUMEQ)', 'Abacavir; Lamivudine, 3TC (Epzicom)', 'Abacavir; Lamivudine, 3TC; Zidovudine, ZDV (Trizivir)', 'Abaloparatide (TYMLOS)', 'Abarelix (Plenaxis)', 'Abatacept (Orencia)', and 'Abciximab'.

Guidelines: ارائه متن کامل بیش از ۴۵۰۰ دستورالعمل منتشر شده از موسسات معتبر در مجلات الزویر جهت استفاده پزشکان

The screenshot shows the ClinicalKey website interface. The browser address bar displays <https://www.clinicalkey.com/#1/browse/guidelines>. The main navigation menu includes 'Books', 'Journals', 'Drug Monographs', 'Guidelines' (highlighted with a red box), 'Patient Education', 'Clinical Overviews/First Consult', and 'Multimedia'. The 'Browse Guidelines' section features a 'Filter By' sidebar with 'Specialties' and 'Authoring Organizations' sections. The 'Specialties' list includes: Advanced Basic Science (74), Allergy and Immunology (100), Anesthesia (25), Anesthesia & Perioperative Care (88), Anesthesia and Perioperative Care (8), Cardiothoracic Surgery (100), and Cardiovascular (883). The 'Authoring Organizations' section has a 'Subscribed Content' filter. The main content area shows a 'Filter List by Title' dropdown and an alphabetical index from A to Z. The first three guidelines listed are:

- 2011 ACCF/AHA Focused Update of the Guideline for the Management of Patients With Peripheral Artery Disease (Updating the 2005 Guideline)**
American College of Cardiology Foundation and the American Heart Association, Inc. [2011 11 01]
- 2011 ACCF/AHA Guideline for Coronary Artery Bypass Graft Surgery**
American College of Cardiology Foundation and the American Heart Association, Inc. [2011 12 06]
- 2011 ACCF/AHA Guideline for Coronary Artery Bypass Graft Surgery: Executive Summary**
American College of Cardiology Foundation and the American Heart Association, Inc. [2011 12 06]

The Windows taskbar at the bottom shows the system clock as 11:09 AM on 22/12/18.

Patient Education: راهنمای آموزش بیماران و شامل سه فیلتر تخصص، سازمان بیمه کننده و زبان می باشد.

The screenshot shows the ClinicalKey website interface. The browser address bar displays https://www.clinicalkey.com/#/browse/patient_handout. The navigation menu includes 'Books', 'Journals', 'Drug Monographs', 'Guidelines', 'Patient Education' (highlighted with a red box), 'Clinical Overviews/First Consult', and 'Multimedia'. The 'Patient Education' section is titled 'Browse Patient Education' and features a 'Filter By' sidebar with categories like 'Specialties', 'Authoring Organizations', and 'Available Languages'. A 'Filter List by Title' dropdown and an alphabetical index are also present. The main content area lists several articles, including '14 Tips for Parents Using OTC Medicines for Your Child' and '17-Hydroxycorticosteroids Test'.

Clinical Overviews: خلاصه بالینی از یک موضوع شامل نکات کلیدی، مشکلات و اقدامات فوری و...
First Consult: مجموعه متون مبتنی بر شواهد قابل دسترس در پایگاه

The screenshot shows a web browser window with the ClinicalKey website. The address bar displays the URL: https://www.clinicalkey.com/#/browse/medical_topic_and_clinical_overview. The page title is "Browse Clinical Overviews/First Consult". The navigation menu includes "Books", "Journals", "Drug Monographs", "Guidelines", "Patient Education", "Clinical Overviews/First Consult" (highlighted with a red box), and "Multimedia". The main content area lists several clinical overviews:

- CLINICAL OVERVIEW**
Abdominal aortic aneurysm
Updated October 17, 2018
- CLINICAL OVERVIEW**
Abnormal labor
Updated November 29, 2018
- CLINICAL OVERVIEW**
Abnormal uterine bleeding in women of reproductive age
Updated November 29, 2018
- CLINICAL OVERVIEW**
Acetaminophen toxicity
Updated February 6, 2018
- CLINICAL OVERVIEW**
Achalasia
Updated November 29, 2018

The sidebar on the left includes a "Filter By:" section with "Specialties" and "Subscribed Content" options. The "Specialties" list includes: Allergy and Immunology (22), Anesthesia (18), Cardiothoracic Surgery (12), Cardiovascular (43), Critical Care (33), Dentistry (4), and Dermatology (50). There is also a "+ More Specialties" link and a "Subscribed Content" toggle.

Procedures Consult: ارائه اطلاعات کاملی از فرایند جراحی شامل آمادگی های قبل از عمل، موارد توصیه یا عدم توصیه به انجام عمل، تجهیزات مورد نیاز، آناتومی، فیلم عمل جراحی، تکنیک جراحی، عوارض و ...

The screenshot displays the ClinicalKey website interface. At the top, there are browser tabs and a search bar. The main navigation menu includes 'Books', 'Journals', 'Drug Monographs', 'Guidelines', 'Patient Education', 'Clinical Overviews/First Consult', and 'Multimedia'. A red box highlights the 'Procedures Consult' link under the 'Multimedia' category. Below the navigation, the page title is 'Browse Procedures Consult'. On the left, there is a 'Filter By:' section with 'Specialties' and 'Subscribed Content' options. The main content area shows a list of procedures with their titles and authors, including 'Abdominal Paracentesis' by Valerie Vigil, 'Abdominoperineal Resection with Total Colectomy and End-Ileostomy' by Danny O. Jacobs, 'Amniotomy' by Michael L. Tuggy, 'Anal Fistulotomy' by Sean Lee, 'Ankle Block' by Lee A. Fleisher, 'Anoscopy' by Michael L. Tuggy, and 'Arterial Blood Gas Sampling' by Murray McLachlan M.D. The Windows taskbar is visible at the bottom.

CME: روزآمد شدن اطلاعات پزشکان و پیراپزشکان بر اساس میزان جستجوهای خود (کتاب ها، مقالات مجلات منتشر شده) در پایگاه و همچنین دریافت امتیاز بازآموزی.

The screenshot displays the ClinicalKey website interface. The browser's address bar shows the URL: <https://www.clinicalkey.com/#/content/journal/1-s2.0-S187628591830487X>. The page title is "Editorial Board" under the "FULL TEXT ARTICLE" section. The article is from "Academic Pediatrics, 2018-09-01, Volume 18, Issue 7, Pages A3-A3, Copyright © 2018 Elsevier Ltd".

A user profile dropdown menu is open on the right side of the page, showing the user's name "mah dieh" and IP address "IP_Univ Hormozgan - WE". The menu items include: Profile, Settings (highlighted with a red box), CME/MOC 3, Change Language, Saved Content, Presentations, Remote Access, Log Out, Help & Feedback, Call Us, Email Us, and Help. Below the menu, there is a section for "About ClinicalKey" with a link to "Learn more about other offerings and editions".

The footer of the page includes the Elsevier logo and links for "Contact Us", "Resource Center", "Terms & Conditions", "Privacy Policy", and "Registered User Agreement". The Windows taskbar at the bottom shows the system tray with the time "09:12" and date "۲۲/۱۲/۲۰۱۸".
